SUMMARY

An adaptable Web Development student with a strong foundation in both frontend and backend technologies. I am proficient in database design and have foundational UI/UX skills. My desire to continuously learn and my problem-solving abilities are recognized through my excellent academic performance and awards won in the school's JS-star competition.

SKILLS

- **Programming Languages:** PHP, TypeScript, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Laravel, NextJs, Express, NodeJs, ReactJs
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, Github, Gitlab, Docker, Postman

WORK EXPERIENCE

Tien Phong CDS - Frontend Developer intern

09/2024 - 12/2024

- Participated in a remote internship project, worked in a team, attended regular online meetings to report progress directly to the business
- Contributed to the development of UI components
- Completed 80% of the work assigned by the company and received an internship certificate

PROJECT

Subject project - website for online smart phone business "STech"

06/2024 - 08/2024

Frontend: builds user interfaces, styled using Tailwind CSS to create a responsive and modern design, implemented a dynamic product catalog showcasing various smartphones with detailed, developed a shopping cart feature allowing users to add, remove, and modify product quantities easily.

Backend: database design, ERD construction, REST API construction for data processing

Database: Managed product data using **PostgreSQL**, focusing on attributes such as memory and color options to enhance user choice and experience.

ACHIEVEMENTS

- Awarded Consolation Prize at the Vietnamese Game Hackathon (Sep 2023) Won First
- Prize at JS-Star Talent Search (Apr 2024) Recognized as Outstanding Student for 3
- continuous semesters (Aug 2022 – Aug 2023)

EDUCATION

FPT Polytechnic

08/2022 - 05/2025

- Major in Website Development
- GPA 9.1
- Certificate **Top Notch 2** (english)
